IT Facilities Including Wi-Fi (2022-23)

Since this is a government affiliated college so institute updates its IT facilities when governments allocate fund/budget for these particular facilities. All the financial transactions are done as according to state government rules and regulations. Besides this, SWAN-Internet which is provided by Madhya Pradesh Govt. is being used to fulfill financial need of college like wages and salary of staff. BSNL Broadband is being used for conducting educational activities with virtue of University, Govt. of M.P. and Human Resources Department. Same mode is being used for communication of official letters, information exchange and experimental work and to make available resources for students like e-papers, journals, e-books and PDF documents. The institution has a virtual class room in which the expert lectures are telecast from various top class academicians of the state from Bhopal. College uses Information and Communication Technology (ICT) in education to support, enhance, and optimize the delivery of education. The whole college has been made Wi-Fi enabled. As a consequence, teachers are combining technology with traditional modes of instruction to engage students in long term learning.
