Policies & Procedure for Maintenance of Physical, Academic and Support Facilities (2022-23)

The College ensures regular maintenance and upkeep of all infrastructural facilities. There is a system in place for maintaining the cleanliness of the campus as a result of which the college has set a benchmark in this sphere. A Campus Committee has been appointed which regularly monitors the cleanliness of the campus and takes initiatives like cleanliness drives etc. The maintenance of physical, academic and support facilities are carried out by the Office Superintendent, Technical Assistant and Lab Technician under the supervision of respective departments by taking the help from in-house staff on a daily basis and periodically. And care has been taken to keep the equipment, machine etc. in working condition. In case of breakdowns standard procedure is followed to bring the equipment/machine in working condition. For the maintenance of toilets and service areas local fund college sweepers have been engaged for cleaning the toilets, washrooms, and buildings. Sometimes the power cuts in our area, the college has installed a generator to cater to the needs of computer labs, laboratories, office, and classrooms. All computers have Antivirus Software.
